

Motion of Discovery - Duke Energy / Conditional Acceptance Of 2016-240-E/ Need the correct Parse- Syntax- Grammar if not received in 10 days then it is NULL & VOID.

Sent out: May, 10th, 2021.

Reply by: May, 20th, 2021 contract is Null and Void.

The web address for the document discussed here is:

<https://dms.psc.sc.gov/Attachments/Matter/9668ec07-62ea-4c94-bc80-d9c93f506f61>

For each of the following I need:

- a) Explain in detail without fancy legal talk (third grade reading level so that the public can understand) and provide the law dictionary the word came out of.
 - b) All the possible means of the word.
 - c) The meaning you had in mind when composing the sentence.
1. Who is ...Esquire "Chieff" Clerk/ Administrator? In the Blacks law 4th edition I was not able to find the word. I was able to find the word: "CHIEFRIE - In feudal law. A small rent paid to the lord paramount." Is this what you are referring too?
 2. Line 3 - ...Commission off... Did you have in mind the word - "OFFA EXECRATA - In old English law. The morsel of execration; the corsned, (q. v.). 1 Reeve, Eng. Law, 21." If not, then describe in detail what you had in mind?
 3. Next paragraph the word Re: what do you mean by Re? Black Laws dictionary says it means - "VERBIS, SCRIPTO, CONSENSU, TRADITIONE, JUNCTURA VESTES SUMERE PACTA SOLENT. Compacts usually take their clothing from the thing itself, from words, from writing, from consent, from delivery. Plowd. 161." Please explain in plain english what you meant:
 4. Where is the complete sentence in: Petition of Duke Energy Carolinas, LLC for an Accounting Order to Defer Certain Costs Related to Advanced Metering Infrastructure (AMI)?
 - (A sentence that is complete normally has one noun and one verb maybe two.)
 - Is your complete sentence a petition? Is it LLC for an Accounting order?
 - Or is it not to defer (De makes the word fer or not to defer)
 - Or is the complete sentence Certain costs?
 - Or is it related to Advanced Metering?
 - Or is it metering infrastructure?
 - The above is an elementary grade question that any elementary student can answer, and contracts are written to be able to be understood by fellow - man and woman - that are customers of Duke Energy.
 5. Why is it that No law or fact shall be tried in court? Are contracts then just all null and void and it's all an illusion?

6. Page 2. ...("DEC" or the "Company") means what? Any [] square brackets, italics, quotation marks, (), means that it is removed from the paper and is blank. So in your opinion what does this mean?
7. Definition of Here.
 - Definition of By
 - Definition of Hereby
8. Where is the complete sentence in the following: "Duke Energy Carolinas, LLC ("DEC" or the "Company") hereby petitions the Public Service Commission of South Carolina (the "Commission") pursuant to S.C. Code Section 58-27-1540, S.C. Code Reg. 103-825, and other applicable rules and regulations of the Commission, for an accounting order for regulatory and financial accounting purposes authorizing the Company to defer in a regulatory asset certain costs incurred in connection with Advanced Metering Infrastructure (AMI) ("AMI Costs")."
 - Duke Energy Carolinas, LLC and then you have bland paper? Is this your complete thought?
 - Or is it here?
 - Or is it by petitions?
 - The Public Service Commission of South Carolina then bland paper?
 - Or is it pur?
 - Or is it suant?
 - Or is it S.S. code section 58-
 - Or is is 27-1540?
 - Or is it S.C. Code Reg?
 - What is Reg?
 - Or is it 103-825? What is 103?
 - What is -825?
 - What is and in relation to the above followed by order?
 - For re-gulatory so that makes it not gulatory and voids your contract.
 - What is the "as" in front of set? It makes it what?
 - How about cer in front of tain? What becomes tain?
 - How about "in" before the word curred? What is in? And what does "curred" become?
 - What is "Con" in front of nection? So does it become no connection? If so then you have a null and void contract?
 - Why the "Ad" in front of vanced? What is Ad? What is vanced? What is the definition of Advanced?
 - Define "Me" in front of tering? What does tering become?
 - Define frastructure? Now what is "In" mean? What is Infra mean? How about Infrastucture followed by blanks? Why are there blanks on the paper and what do they mean? Why even include blank paper? If you create a null and void contract why even have one? Is is to confuse citizens so that they are under the impression that there is a contract when in reality it just seems like there is a contract?
 - Now where is the main thought of this broken sentence?

- Where are the facts in this sentence so that they can be analyzed.
 - Show me all the nouns in this sentence as they are required to even have a sentence.
 - How many verbs are you using in this sentence?
 - How many adverbs are you using in this sentence
 - Now fix the sentence so has the correct Parse- Syntax- Grammar
9. The Company seeks to defer the depreciation associated with the installation of AMI meters, also known as "smart meters," as well as the carrying cost on the investment at its weighted average cost of capital, in an amount of no more than \$45 million until the Company's next general rate case.
- You can not have seeks in the future followed by the installation of present tense. A correct sentence either has a future, present, or past tense. You do not have a sentence. Contract is null and void!
 - Why is Company written with a capitol? The word the in front of makes the next word null, for example like in The Public Service Commission. The correct meaning is that the Public is not actually Public since it has the word "the" in front of Public. So if you have no company, then there is no contract and your document is null and void.
 - If there is no Public Service Commission then what do you have? A service commission that services Duke Energy along with other electric companies?
 - Where is the main thought in Company seek to not defer?
 - Now what do you mean by de-preciation? De in front of preciation means that it does not preciat. So your contract is null and void as you are now lying about depreciation.
 - What does the word "ass" mean in front of associated? What is the whole meaning in the context?
 - Where does investment come into the equation, I believe this is a run on sentence by the powers of twelve or some other number because there is no clear thought.
 - What are you trying to say by "also know as" then you have a blank? Why have blanks on the page? Your contract is null and void? Why expense the energy in writing blank contracts, except to maybe make it seem like you have something?
 - There are two spaces between ("AMI Costs"). "Space" "Space" you have broken the evidence and you have no contract meaning its null and void.
 - When including "as well" in a sentence that makes no sense as is what do you mean?
 - The you follow with "as the"? What is the definition of this in a sentence with incorrect grammar, syntax and parse?
 - Since there is a "the carrying" then their is no carrying cost and you have lied, making you contract null and void.
 - The word "in" in front of vestment-Define please? Define investment? How about vestment?

- How about at it weighted? Why is it in past tense? Case is present tense and next is future making the sentence incorrect and making your whole contract null and void.
 - What investment are we talking about? Where is the main idea? Where is the noun, verb, adverb, and so on?
 - Contracts can not be written in verb adverb changing the meaning of facts, because then you have no facts and therefore no contract, it's all null and void.
 - What cost of capital are we talking about? Daily, monthly, yearly? Can you be more specific?
 - How much more than \$45 million? You can not have a open ended contract, it has to be precise or have a figure.
 - Do blank spaces in the agreement void the continuum of the evidence, or void an agreement stated in the paper agreement?
 - What are the company rules for double-spacing?
 - Does your company use a style manuel?
 - What are my rights in a signed agreement, hereafter contract?
 - Does your company have a four corner rule, meaning anything in brackets, parentheses, or italics is separate matter from the page?
 - Do the words in the contract have one meaning per word?
 - Or do the words have contanymys and/or other variable for interpretation, which may be misleading?
 - If the latter is true, who is the party that would be responsible for the interpretation of the said contract?
 - Will this be left up to a court or a third party for judicial interpretation?
 - Or is it based on common opinion?
 - Does this contract, paper agreement, comply with federal law?
 - What are your accounting policies?
 - Are they stated in the paper agreement?
 - Who insures your company?
 - Who insures your accounting protocols?
 - Could I have a copy of the policies and terms?
 - Who ensures this contract?
 - Does this contract have international application?
 - Does this contract have present applicability, hereinafter now-time standing as a contract, or is this contract, hereinbefore "paper agreement", structured as an evidentiary bill, hereinafter "evidence of a past liability?"
10. "DEC also seeks to accrue carrying costs, at its weighted average cost of capital, on the deferred costs. The Company also seeks to continue depreciating the outdated meters that will be replaced. This amount is already included in rates and will therefore not be included in the deferral."
- Who is "D"? Who is "E"? Who is "C"?
 - How can you also seek? I understand you seek? But also seek what? What have you lost that now you seek? Where is it located that which you seek?
 - What is "ac" in front of crue?

- Have you forgot to mention someone or something seeking and your remembered to put it in now? Please fix this sentence so that it has one noun, and one verb.
- Who is carrying your costs? Where are the costs being carried too? How far do they have to be carried? Can you be more specific? Cost of what? Where did the cost come from?
- At its weighted? Its represents what?
- Average cost of capitol? Well, what is the average cost of capital? Or are you just including misleading statements making your contract null and void.
- What is the main idea with “de” and ferfed cost, along with the rest of the sentence?
- Also seeks along with what? Seeks to continue, so it's your choice then to de-preciate? So then you can appreciate, as well?
- What is the meaning of outdated when you are referring to seeking? Are you seeking for outdated-what? Can you be more specific?
- Continue is present tense and outdated is past tense so it makes your contract null and void. Please fix it.
- “Is”-present tense and included is past tense making the contract null and void.
- Will is future tense and included is past tense making absolutely no sense in the english language making your contract null and void.;
- “therefore not be included in the deferral.” “Not be” crosses out included and de crosses out feral making the whole sentence pointless and thus voids the whole contract, please fix.
- Are you sure your paralegal attended highschool, maybe college, because your whole contract is null and void.

Conclusion: Duke Energy’s “Petition of Duke Energy Carolinas, LLC for an Accounting Order to Defer Certain Costs Related to Advanced Metering Infrastructure (AMI)” is completely null and void and I have shown that with just a couple of pages.

I am giving you 10 days from today to fix this with the proper Parse- Syntax- Grammar, and If there are no more mistakes then I will accept your contract, but as of now, the Commissioners have committed conspiracy with Duke Energy as the contract was null and void in the beginning along with false and misleading statements, fictitious convenience of language. You all know the law very well and what the consequences are for your actions.
